Course Summary

About this Course

Hello learners, Welcome to MAKERDEMY's "Learn Alexa the Fun Way" course. If you are looking for that one course that will help you gain the confidence to build and publish Amazon Alexa skills, you have come to the right place.

With numerous custom made illustrations and animations, we have set the standard in terms of production quality. All so that you can have a terrific learning experience.

This course is meant for anyone who wants to build many fun-filled Alexa skills and publish them for the whole world to use.

If you are an engineer who wants to get started with Artificial Intelligence or a hobbyist looking to learn about Alexa or earn money by publishing custom Alexa skills, then I am sure this course will be perfect for you. This is because we have tailored this course by giving equal importance to both the projects as well as the concepts.

So come, join me in this introductory course on Learning Alexa the fun way. I am looking forward to being your instructor and hearing about all the incredible skills you were able to make with Alexa.
