

## Course Specifications

**Mode of Study** : Offline

**Location** : Nairobi

**Duration** : 3 Year(s)

**Intake** : January, February

## Course Summary

Quantity Surveyors control the 'money' for their clients in construction projects – they are experts in dealing with all financial matters related to a building project, from start to finish. They are mainly responsible for estimating the cost of a new building, calculating the materials and labour used in a building, preparing tender and other legal documents, estimate the value of work done at various stages of the contract, i.e. controlling all costs while a building is being built.
